

What did you especially like about this course?

The instructor laid out all the information in a way that was easy to understand for someone who may have never considered animals in a moral way. What I like most is she was always extremely unjudgemental of all viewpoints - she never chastised someone for not understanding something, and was open to hearing anyone's argument. Overall, my beliefs have been strengthened by this course and I have important arguments to back them up.

1. What did you especially like about this course?

- Dr. Tom worked very hard to make the lecture content accessible and understandable for all students. She translated a large part of the readings for the benefit of many (students).
- Dr. Tom was always available for discussion in person and online. She always responded to my emails rapidly.
- With this, Dr. Tom showed genuine concern for her students. She was evidently passionate about the topics being discussed and did so much to ensure that her students could be on the same page.
- Her powerpoints were very helpful aids and I wish more philosophy professors did something like this.
- The group assignment was a wonderful, engaging and interactive way to learn and be assisted.
